Pivotal
VITAL TO YOUR PRACTICE

VITAL TO YOUR PRACTICE

EVOLUTIONARY TECHNOLOGY. EXCEPTIONAL WOUND CARE.

At Pivetal, we understand that choosing the right suture is unique to each practice and the veterinarians that use them daily. With an assortment of affordable solutions that rival other leading brands, Pivetal's selection of swaged sutures are manufactured with distinct attributes, like fluorescent coloring and glare-reducing Cobra Black needles, to meet the demands of varying surgical procedures. The diversity of both the absorbable and non-absorbable suture profiles provides veterinarians with wound closure options that reduce the risk of infection and promote healing.

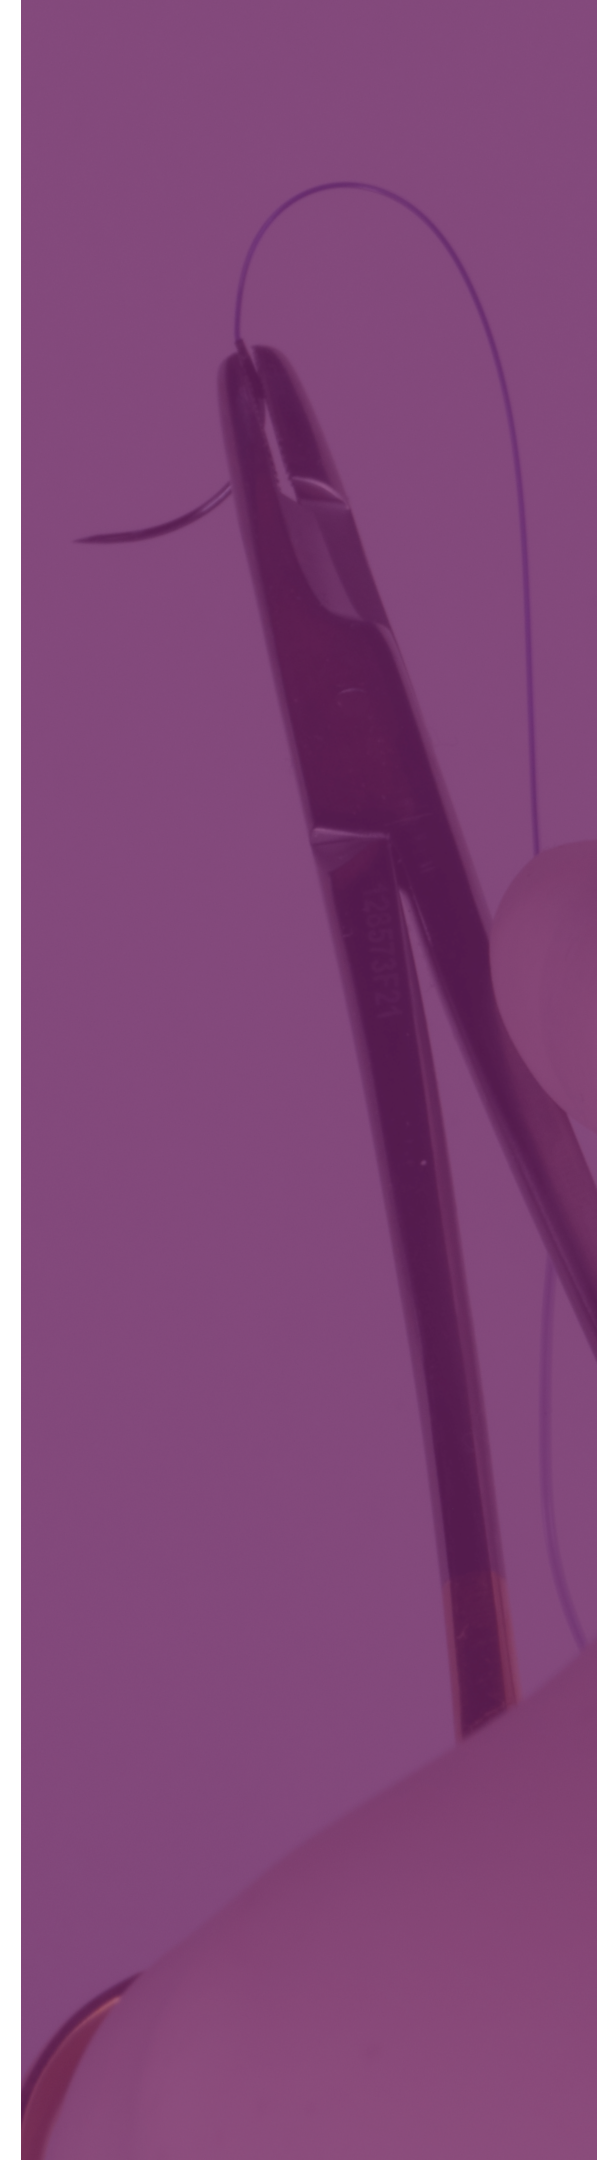

Pivetal brand sutures are manufactured in the United States in a world class facility. Our process and focus on quality are second to none. Pivetal sutures are made in an FDA-registered facility and comply with ISO 13485-2003. Each suture is produced in a class 10,000 ISO-7 clean room.

Each box of Pivetal suture comes in ready-to-use, individually wrapped, sterile pouches with hand-attached needles on uniquely designed racetrack packaging to reduce thread kinking and suture memory. Our manufacturing capabilities allow us to expedite the sterilization and drying process, ensuring that each 12-count box of Pivetal suture arrives to your clinic with an extended shelf life.

This premium suture line is one we believe you and your staff will be happy with, both in performance and value. We urge you to try a box (or two) of our suture risk-free! Reference page 42 for complete details on our Pivetal Promise 100% Guarantee.

DURABILITY WHERE IT MATTERS MOST

300 SERIES PREMIUM NEEDLES

Pivetal needles are made from a proprietary 300 series stainless steel blend, making the material more durable with greater tensile strength, higher ductility, and less brittleness than those made of 400 series stainless steel. As a result, the needles are able to endure the demands of procedures involving tougher tissue types.

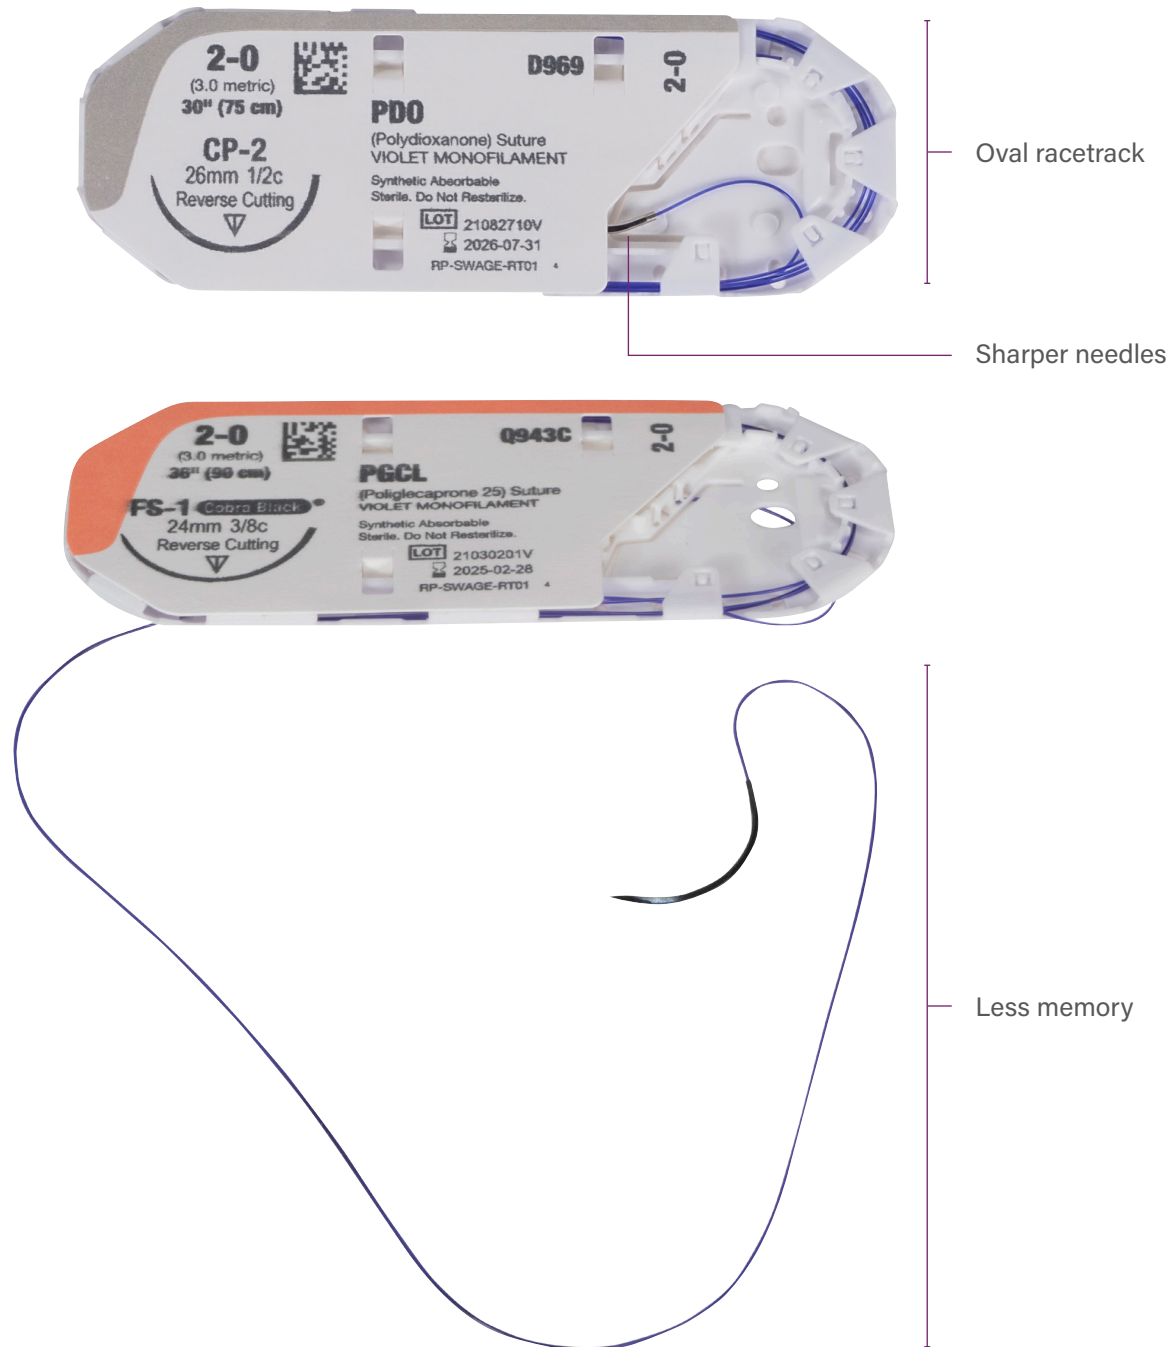

Acculine Engineering, Inc. Final Report: Needle Penetration and Ductility Testing. October 18, 2011. Prepared for Riverpoint Medical - Portland, OR. Data on file.

PURPOSEFUL PACKAGING

Pivetal suture comes in purposefully designed racetrack packaging specifically intended to reduce unwanted suture memory. These sutures are sold in economical boxes of 12 to reduce waste and manage inventory costs.

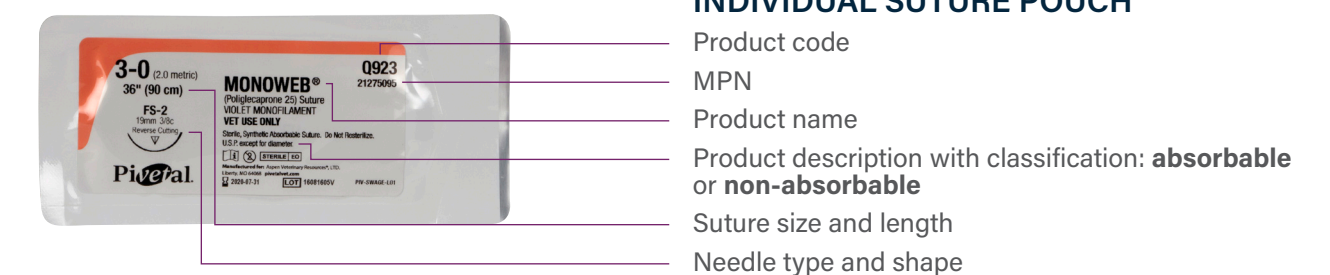

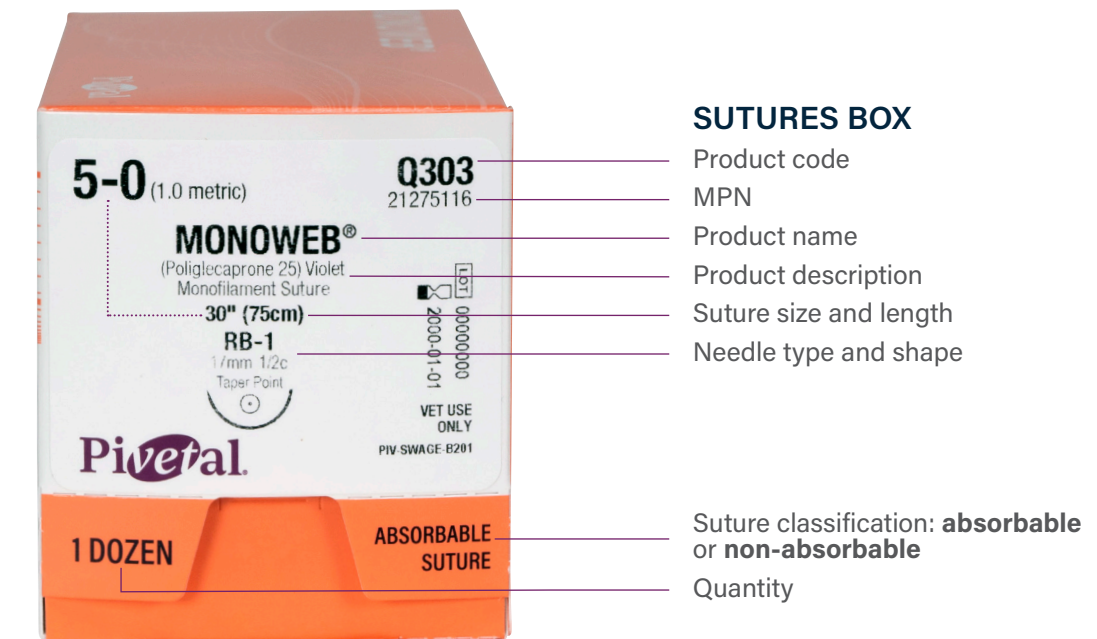

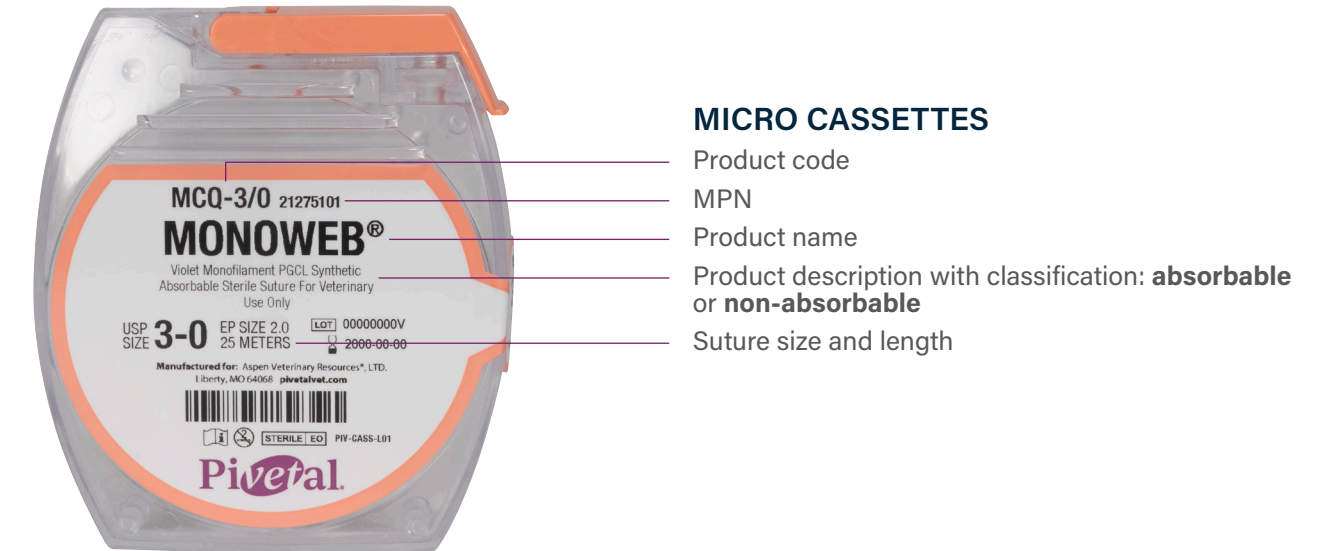

THE RACETRACK ADVANTAGE

Our oval racetrack design alleviates the hassle involved with tugging and straightening the suture for optimal handling. The quality of the needle tip is protected in package by foam.

HOW TO READ OUR PACKAGING

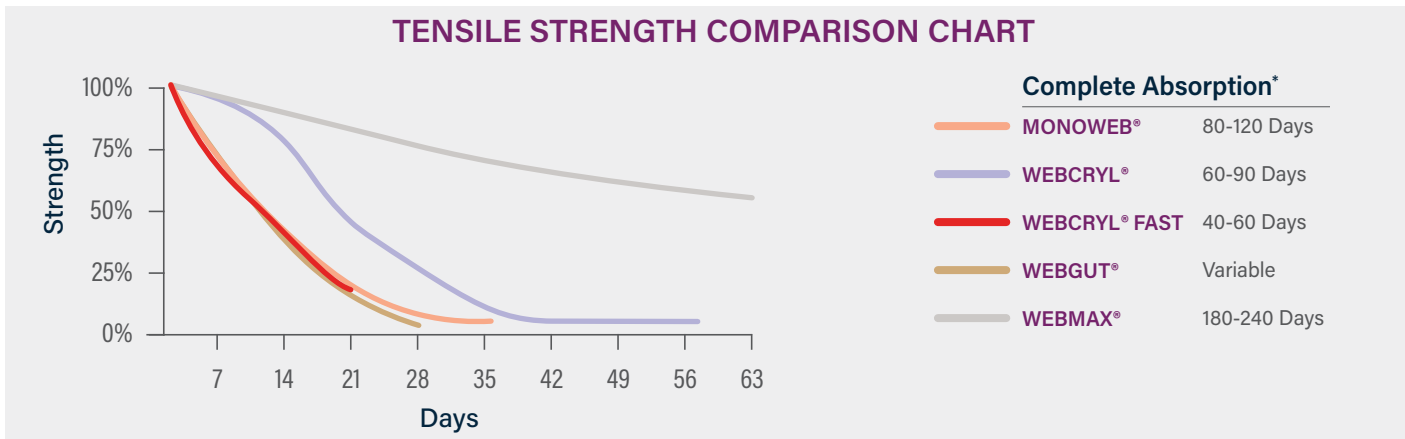

At Pivetal, we understand that choosing the right suture is unique to each practice and to the veterinarians who use it daily. Our suture boxes are **industry color coded** for easy identification and each box provides important details about the suture inside.

ABSORBABLE SWAGED SUTURE

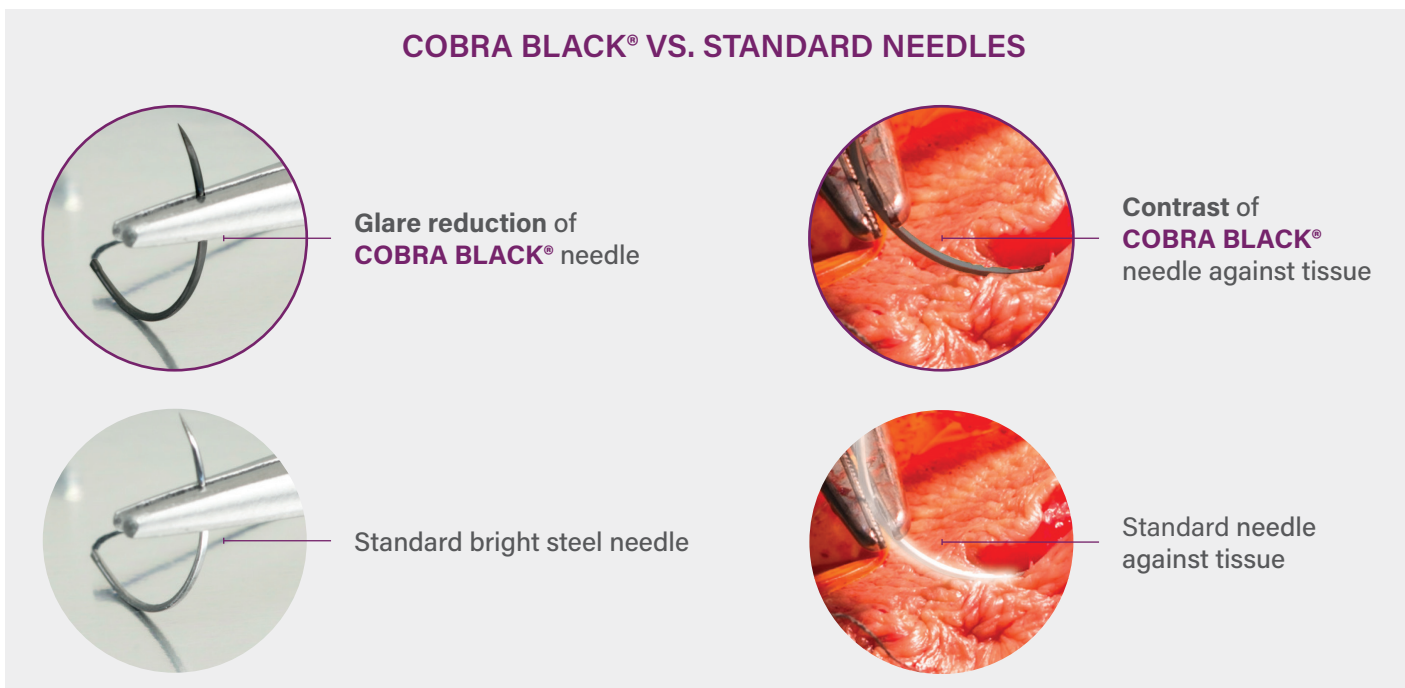

Absorbable sutures are designed to naturally degrade in the body, losing tensile strength over a period of time, either rapidly or over an extended absorption rate, based on their material type. Absorbable sutures are intended to temporarily close wounds and promote internal tissue healing in areas where removal of the suture may be difficult.

For the complete list of available absorbable sutures, please see page 7.

COBRA BLACK®

The **Cobra Black® needle** is a patent-pending design that enhances visibility and eliminates the glare caused by operating room lighting compared to standard (silver) needles. The Cobra Black® needle line is ideal for dental procedures and minor surgery where higher amounts of blood may be present.

ANTIBACTERIAL ABSORBABLE SWAGED SUTURES

Pivotal's **PLUS** suture line offers veterinarians an alternative solution when treating high-risk patients with bacterial infection concerns.

- Our **PLUS** sutures provide the same handling and performance of our other suture products, but with the added benefit of antibacterial protection.
- These **PLUS** sutures are coated with chlorhexidine diacetate, a proven antibacterial agent, which results in a zone of inhibition around the suture line.
- The **PLUS** antibacterial agent is recognized as being effective against bacteria such as *Staphylococcus aureus*, *Staphylococcus epidermidis*, MRSA, and MRSE.

For the complete list of available antibacterial absorbable sutures, please see page 17.

*Petri dish images are for illustrative purposes only; zone of inhibition testing results can vary. Riverpoint Medical - Portland, OR. *Antibacterial Evaluation of Vilet® Plus Using Agar Diffusion Plate Method*. Retrieved April 2022. Confidential. For Veterinary Use Only. EVERYDAY ESSENTIALS AT AN EXCEPTIONAL VALUE.

Never sacrifice quality even when purchasing the basics. Pivetal offers an array of white goods, bandages, dressings, and hospital sundries that are vital to keeping your practice running smoothly.

Order them today and save!

NON-ABSORBABLE SWAGED SUTURE

Non-absorbable sutures are designed for long-term exterior wound closures which require removal once the wound has healed. Non-absorbable sutures can also be used to ligate slow-healing tissue within the body.

- **Monofilament** non-absorbable sutures pass through tissue smoothly and are resistant to harboring microorganisms.
- **Multifilament** non-absorbable sutures are braided, offering exceptional flexibility and strength for knot security.

For the complete list of available non-absorbable sutures, please see page 23.

PATIENT RECOVERY MADE EASY.

Pivetal's Elizabethan collars offer veterinarians a diversified approach to patient recovery. With an assortment of styles and sizes, you can send clients home with an E-collar perfectly suited to provide dependable coverage without compromising comfort.

In addition to traditional collars, Pivetal offers plastic alternatives that reinforce at-home compliance. The well-known **Recovery** and **Snug fit E-collars** provide soft, flexible coverage your clients (and patients) prefer. Keep your clinic stocked with a variety of **Pivetal E-collars** to accommodate even the peskiest of patients!

CASSETTES

Pivetal's micro-cassettes were designed to address the economic needs of veterinarians while taking practical applications, in the field, into consideration. These micro-cassettes complement on-the-go practitioners, and easily fit into a pant or coat pocket. Pivetal's micro-cassettes are environmentally friendly and use 50% less plastic than other brands without reducing the amount of suture needed to stitch patient wounds.

For the complete list of available micro-cassettes, please see page 31.

CASSETTE RACK

A stainless steel rack that holds up to 5 suture cassettes.

MPN	DESCRIPTION	MATERIAL	SIZE	QTY
21275305	Cassette Rack	Stainless steel	5 Slot	1

PERFECT for storing Pivotal micro-cassettes.

SURGICAL STAPLERS

Pivotal's single-use surgical staplers are designed with a squeeze handle for accuracy when securing skin closures.

- Ready to use
- Transparent design ensures accurate staple placement
- Contains 35/316L stainless steel staples in regular or wide design
- Disposable, non-reloadable
- Sterile

MPN	DESCRIPTION	SIZE	QTY
21295417	Surgical Stapler	Regular	35s
21295418	Surgical Stapler	Wide	35s

WEBGLUE® SURGICAL ADHESIVE

Pivotal's surgical adhesive, WebGlue®, contains purified n-butyl cyanoacrylate with D&C-certified blue dye that allows for differentiation between the product and bodily fluids but dries clear for a clean appearance.

- Saves time and money in minor surgical procedures and wound closure
- Alternative to external sutures
- Seals exposed nerve endings
- Reduces oozing and irritation
- Sheds naturally from the skin in 5-7 days
- 5-15 second setting time per drop
- Vibrant blue color for distinct visibility when applying
- Dries clear
- Available in 2 mL or economical 3 mL size, both include 12 applicators
- Manufactured in the USA

WebGlue® Surgical Adhesive should ONLY be applied topically. This product is not intended for internal use.

MPN	DESCRIPTION	SIZE	APPLICATORS	QTY
21295419	WebGlue® Surgical Adhesive	2 mL	12	1
21295420	WebGlue® Surgical Adhesive	3 mL	12	1

IMPORTANT

FOR PROPER STORAGE, immediately close cap when not in use.

SKU QUICK REFERENCE

PRECISION FROM PIVETAL

Pivetal surgical instruments offer outstanding performance and durability. Our multi-purpose needle holders are uniquely designed to hold and manipulate needles based on your procedural application. Made with tungsten carbide inserts to increase quality and longevity, these versatile tools were made for veterinarians.

OUR GUARANTEE

At Pivetal, we understand that choosing the right suture is unique to each practice and the veterinarians that use them daily. All Pivetal sutures are 100% guaranteed, so you can try a box (or two) risk-free! If you are dissatisfied by our suture products in any way, we encourage you to reach out to your sales representative for a full refund. This premium suture line is one we believe you will be happy with – both in performance and value.
